Spring Recognition Celebration
Motivating and recognizing the effort and dedication of individual students, project groups and reflection teams is a vitally important and fun celebratory component in Leadership Lehigh. Every spring the entire Leadership Lehigh program gathers to celebrate the close of the semester with fun, food, music and games to relax and reward all participants for successfully completing the year and personally growing as leaders. This event is the only time that all of Leadership Lehigh gathers as a large group and the informal setting allows students to connect with their peers over the common leadership learning experience they have all shared.
