

**LeaderShape Poem**  
By Jonathan Gonzales

How do we stay in action?  
Is it dependent on one's reaction?  
Is it different for every single faction?  
Is it possible that that we can achieve true satisfaction?  
What do we do, for our action?

**Day 1: Community**

We must make an environment comfortable for all.  
We must create a location where we pick each other up when we fall.  
We must build a place for all to come together in unity,  
We must form ourselves our own community.

**Day 2: Value of One the Power of All**

We must each know our worth in this,  
And focus on the capabilities we have and cannot dismiss.  
We must join together, for our visions are tall,  
We must acknowledge the value of one and the power of all.

**Day 3: Challenging What is and What Could Be**

We must look at what has already been complete,  
And establish what ideas we want to compete.  
We must wholeheartedly search around and decree,  
To challenge what is, and look to what could be.

**Day 4: Bringing Vision to Reality**

We must analyze our visions to do the impossible,  
We must make them real, true, and probable.  
We must bring them to life, beyond our own mortality,  
We must take it in and bring our vision to reality.

**Day 5: Living and Leading with Integrity**

We must re-evaluate our values, morals, and what we believe  
We must be true to ourselves and what we conceive  
We must show the world who we are with authenticity  
We must live and lead our lives with integrity

**Day 6: Staying in action**

We're all leaders. We can help and follow each instruction.  
We can make an ideal world with our own construction.  
We can do this by: Building our own community,  
Acknowledging the value of one and the power of all,  
Challenging what is, looking to what could be,  
Bringing our visions to reality,  
And leading and living with integrity.

We are all able to look around and discover a need,  
So it's time for us to pick up the torch and lead.  
Then, and only then will we achieve true satisfaction.  
Now, for our view, is, staying in action.
