

LeaderShape @ Lehigh Institute 2015

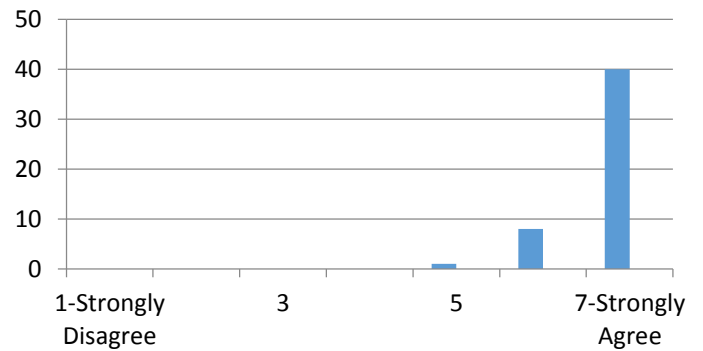

The second annual six-day campus-based session of the national LeaderShape® Institute was held at Camp Canadensis in Canadensis, PA from May 17th-May 22nd, 2015. **52** student participants and **6** faculty/staff facilitators learned to *lead with integrity*sm and have a “healthy disregard for the impossible.” Throughout the week, participants learned more about their personal leadership styles, how to create and foster a vision, and build relationships to implement their visions.

In general, the LeaderShape Institute was a valuable experience in developing my capacity to lead

I would recommend the LeaderShape Institute to others
