

Dear Student,

You have been identified as a CLOSE CONTACT because your roommate or suitemate, or someone you know that identified you as a close contact, has tested positive for COVID. Please read and follow these instructions carefully. You can also find additional information from the [CDC regarding recommendations for COVID-19 close contact here](#).

Regardless of vaccination status or if you have had a previous infection, you are **not** required to quarantine if you are **not** experiencing symptoms.

- Wear a well-fitting mask for 10 days upon exposure.
- Test on day 6 after exposure even if you don't have symptoms
 - You can pick up an at-home Antigen test from the Health & Wellness Center, and test on or after day 5 of exposure, or if you have symptoms.
 - If you test **POSITIVE**, please upload an image of the test that includes your name, DOB and date you took the test to the [Student Patient Portal](#) for review and processing.
 - If you test **NEGATIVE**, no further action is needed. Continue to monitor symptoms and wear a mask for the full 10 days.
- Monitor your symptoms closely. **If you are experiencing symptoms, please contact the Health & Wellness Center** at 610-758-3870 for guidance, evaluation, and symptomatic testing. At any time, if you are experiencing a true medical emergency, call LUPD at 610-758-4200 or dial 9-1-1.
- **If you are immunocompromised or have other factors as outlined by the CDC that place you [at high risk for serious complications because of a COVID infection](#) and reside on campus**, please email the Relocation Team at inisohtg@lehigh.edu so they can provide additional instructions to you and your roommate.

As always, if you have any non-urgent questions, you can send the Health & Wellness Center a secure message through the [Student Patient Portal](#) and a staff member will be in touch.

Our campus protocols and any changes continue to be noted on the [Campus Status](#) page, the [COVID Information Center](#), and [Frequently Asked Questions](#) page.
