Class of 2021 Mindset List

They are the first generation for whom a “phone” has been primarily a video game, direction finder, electronic telegraph, and research library.

In college, they will often think of themselves as consumers, who’ve borrowed a lot of money to be there.

Peanuts comic strips have always been repeats.

They have largely grown up in a floppy-less world.

It is doubtful that they have ever used or heard the high-pitched whine of a dial-up modem.

Wikipedia has steadily gained acceptance by their teachers.

Bill Clinton has always been Hillary Clinton’s aging husband.

*Dora the Explorer* and her pet monkey Boots helped to set them on the course of discovery.
