**LEHIGH 5X10 SYMPOSIUM**

Friday, August 20, 3:30pm - 4:30pm

---

**THINKING THROUGH TECHNOLOGY**
Dr. Greg Reihman
EWMF 520

Are new technologies changing our views of metaphysics (what’s real) and morality (what’s right)? Participants in this interactive session will discuss how recent advances in fields such as neuroimaging, virtual reality, artificial intelligence, and social networking might be changing how we see ourselves and how we approach the obvious we face.

---

**VAMPIRE RIGHTS**
Dr. Nick Chater
Maginnes 101

This program introduces students to the complexities of political engagement. Students will learn about the ways in which civil rights and civil liberties are integral to democratic practices and the dangers of authoritarianism. This is an experiential exercise that facilitates critical reflection on the personal and social challenges of working toward a diverse, inclusive, and equitable society.

---

**ACING COLLEGE THROUGH PSYCHOLOGICAL SCIENCE**
Dr. Jason Marsh
STEPS 490

What is the best way to study? How do you learn new things? How do you mentally prepare yourself to succeed in college? All of these questions are answered through psychological research. This lecture provides pro tips of how to excel at college through the power of psychological science.

---

**HOW TO MANAGE YOUR ENERGY:**
A Global Perspective
Dr. Lina Rodríguez
Maginnes 108

To create, impact, and contribute, you need to get your own act together. Around the world, indigenous groups and others thrive in energetic terms. In this session, based on Ayurvedic teachings, learn what your typical energy pattern is, what it looks like out of balance, and how to rectify it.

---

**MAKING MUSEUMS MATTER**
Dr. William B. Crow
LUAG Main Gallery

Museums are no longer dusty storage houses of the past. They are places that spark creativity, curiosity, and new knowledge on topics that are relevant to our world. Discover the Lehigh University Art Galleries and how you can get involved!

---

**WHAT CAN REALITY TV TEACH US ABOUT OURSELVES?**
Professors Danielle Lindemann
Packard 416

It can be hard to take reality TV seriously, and at first glance, the people who inhabit these shows may not seem very much like ourselves. However, by applying a sociological lens to these programs, we can better glance, the people who inhabit these shows may not think in energetic terms. In this session, based on Ayurvedic teachings, learn what your typical energy pattern is, what it looks like out of balance, and how to rectify it.

---

**A CHEMIST’S MUSINGS ON THE MAMMALIAN SENSE OF SMELL**
Professor Greg Ferguson
STEPS 190

The Nobel Prize in Medicine and Physiology awarded a few years ago for unmasking the olfactory system provides a delightful opportunity to reflect on the different kinds of thinking involved in systematic advances and abrupt discoveries. It also serves as an excellent example of new understanding “wuthing” from field into another.

---

**GETTING TO KNOW YOUR NEW HOMETOWN: A CITY PLANNER’S PERSPECTIVE**
Professor Karen Beck Finley
Packard 208

Our neighborhoods play a huge role in our physical and mental well-being, access to opportunity, and ability to connect with those nearby. These places don’t just shape us; we shape them. Hear more about South Bethlehem and how you might put your own stamp on it while at Lehigh.

---

**THE MAGNETISM OF ROCKS AND EARTH HISTORY**
Professor Ken Kodama
Maginnes 260

Scientists can measure the ancient magnetism of rocks that was acquired when they formed. This fossil magnetism, or palaeomagnetism, is used to determine the ancient direction and intensity of the Earth’s magnetic field. It is used to construct the ancient geography of Earth’s continents, the movements of far travelled micro-continents, the tectonic rotation of regions, and the timing of the nucleation of Earth’s solid inner core.

---

**YOU WANT TO USE YOUR STEM DEGREE AS A SPRINGBOARD TO PROFESSIONAL SCHOOL?**
Professor Lawrence Tartaglia
Maginnes 260

Some of us have wanted to go to professional school (e.g., Medical, Dental, Graduate, etc.) for as long as we can remember, while others might figure out their paths during, or after college. But do you know what it takes to get in? In this session we will look at historical trends, admissions standards, and the unique aspects of an applicant’s resume/CV that will help you stand out among a sea of highly qualified candidates?

---

**STRONGER, SMARTER, FASTER, AND… TASTIER? MATERIALS SCIENCE AND ENGINEERING DOES IT ALL!**
Professors Nick Staudt and Sarah Liptak
Packard 465

What do ultra-strong materials for flying vehicles, smart quantum-based computers, fast production of multi-story tall rocket engines, and tasty ice cream have in common? They all start with innovations in Materials Science and Engineering! Come learn about how materials science has repeatedly revolutionized society!

---

**IS ARCHITECTURE SUSTAINABLE?**
Professor Nick Noble, AIA
Packard 360

The biggest issue shaping the future of our cities, and our nation, is the question of how we grow. Housing production in the U.S. is overwhelmingly concentrated in low density areas. For most of the 20th century, the concept of mass home ownership seems an inexorable part of American culture. We look for the idea’s origins in the 20th c. (mobility, energy and material use) and ultimately ask: is buying a home all it’s cracked up to be? We’ll discuss examples and what we can do in the third decade of the 21st century.

---

**ENTREPRENEURSHIP, INNOVATION & INSPIRATION**
Professor Pat. J. Costa
Rauch 24-1

Students at Lehigh have created new products, technologies, and services… and launched companies while they were undergraduates! How does that work? What (and why) do you need to know if you want to start something new? Come to this interactive session to discuss how to make the next big thing happen while you’re at Lehigh.

---

**PERSONAL BRANDING—THE NEED TO BE DIFFERENT**
Professor Steven Savin
Rauch 251

No matter what Major you choose, Personal Branding is about how to differentiate oneself such that you are better positioned for Job and/or Summer Internship placement. Personal Branding enables students to uniquely develop a career growth plan, with tips on how to win that desired job or internship.

---

**100 YEARS OF AEROSPACE ENGINEERING**
Professor Terry Hart
Maginnes 102

The progress made in the past 100 years of aerospace engineering has been nothing short of spectacular, from the Wright brothers, to the landings on the Moon, deep space probes and rovers on Mars, as well as many commercial successes, including Boeing’s 787 Dreamliner. Professor Hart reviews this history and shares many of his personal stories of his involvement.

---

**BIOTECHNOLOGY IN THE FUTURE**
Professor Tommy Pashuck
STEPS 290

Improving health is one of the great scientific and engineering challenges. This will require a better understanding of the human body, earlier diagnosis, and new types of therapies. Come find out how bioengineers are inventing the technologies that will help people around the world like longer, healthier lives.

---

**GAME AND PLAY**
Professor Will Lowry
Maginnes 112

Theatre can be studied through games, and games can convey theatricality. But how can game and story intersect in live performance? We’ll explore Lehigh’s devised production of GPS, and see how rules blend with ritual. How a game prompts creativity, How a play—a story—endeavors to create bonds.
